Motion for Correction

Felicia Walls the Plaintiff respectfully requests that the Court corrects a misunderstanding regarding the facts in her case.

There exists a wrong interpretation-most likely due to the wording of the plaintiff's complaint. In her complaint page 3 (1), she states that the defendant ALETTA JETT used her computer privileges to access her DOC records. However, they were not medical records, as the Court interpreted, but DOC's records containing her prison information.

Where the Plaintiff describes her pain and suffering she is referring to how this act "hurt" her physically due to her mental problems. This is not a medical suit.

Therefore, the Plaintiff requests that the Court correct any documentation, and inform her of any reconsideration based on this data, if any.
